*Experience Utah's Largest Brick and Stone Showroom*

Imagine a colorful world of brick and stone. Imagine more colors and textures than you ever knew existed. Now imagine it all under one roof.

If it sounds unbelievable, well, it is. It also happens to be our new 7,000-foot showroom. After almost 25 years in business, we've outgrown our old location. With Utah's largest selection of brick, natural and manufactured stone, we knew we'd need a somewhat extraordinary new space. And that's just what we built. It's a showroom so large, we went ahead and put a house in it.

Just step inside and let your eyes wander. Our 22-foot ceilings allow just enough room to pack in our truly breathtaking variety of materials. But it's not just our selection that makes us unique. We've made it easier than ever to find the perfect look, with large stucco, fascia and roofing samples to help you mix and match color combinations. Not to mention a friendly, knowledgeable staff that can open your eyes to whole new possibilities.

It all adds up to a shopping experience unlike any other. So come and peek inside. Your imagination and your neighbors will thank you.
